Mohamed Samir Loul

Software Development Student

Netherlands

January 17, 2006

sameerloul2010@gmail.com

PROFESSIONAL SUMMARY

Motivated Software Development student with a diverse educational background and strong multilingual abilities. Originally from Syria and now based in the Netherlands, I bring a unique perspective shaped by resilience, adaptability, and a passion for technology. Currently pursuing my dream of becoming a software developer while building practical skills in programming and problem-solving.
